CLINICAL LABORATORY TECHNOLOGY-PHLEBOTOMY

Phlebotomy is the collection of blood specimens using venipuncture and dermal puncture techniques. Phlebotomists are often the first member of the laboratory team that the patient encounters. For this reason, students considering a career in phlebotomy should possess good communication skills in addition to being able to perform technical procedures accurately and react professionally in critical situations. Phlebotomists work in hospitals, outpatient clinics, commercial labs, blood centers, physicians’ office labs and others.

Students who complete all required phlebotomy courses with grades of C or better will receive a Basic Vocational Specialist certificate from ECC.

Entrance Requirements
• Score in the 12th percentile or better in each section of the PSB-HOA exam
• Official high school transcript or GED certificate

Program Requirements
Students must provide their own uniform and transportation to and from all clinical sites. To be eligible to sit for the phlebotomy technician certification exam offered by the American Society of Clinical Pathology (ASCP) students must provide proof of high school graduation or equivalent or successful completion of college level courses.

Policies and Procedures
Students applying to health professions programs must provide a valid Social Security number in order to be screened for placement on the Illinois Health Care Worker Background Check Registry. Students must be listed on this registry in order to be eligible to complete required clinical training. Students demonstrating a positive background check will be denied admission to any health professions program. A valid Social Security number is also needed to apply for licensing/certification exams.

Before attending clinical training, students must have the following documentation on file in the health professions division office: negative drug test results, completed medical form which includes proof of immunizations/titer results, and proof of health insurance coverage.

Health professions students will be required to update their drug test, TB test/TB survey, and flu vaccine on an annual basis. Students demonstrating a positive drug test will be dismissed from the health professions division.

The standards, policies and procedures of the phlebotomy program are published in the phlebotomy student handbook. Copies of the student handbook may be obtained online at elgin.edu/phlebotomy.

All CLT courses numbered 100 and above may be applied to the major field and elective requirement in the Associate in Arts and Associate in Science degrees.

SPECIAL NOTE: A criminal background check, drug test, and appropriate PSB-HOA test scores are required for the Clinical Laboratory Technology (CLT) program. For more information please refer to elgin.edu/clt (https://elgin.edu/clt/).

CLT 100 Intro to Clinical Lab Technology (2.5) 2.1
This introductory course will familiarize the student with the professional responsibilities of the clinical laboratory technician. Units on medical terminology, laboratory safety, infection control, use of diagnostic equipment, and quality control will be covered. Students develop basic phlebotomy skills in preparation for CLT 120. (1.2) Proficiency Credit Available Pass/No Credit Not Available

www.elgin.edu/clt (http://www.elgin.edu/clt/)

SPECIAL NOTE: Explore the clinical laboratory technology program and come to an information session. For more details, go to elgin.edu/visitecc (http://elgin.edu/visitecc/)

A criminal background check, drug test, and appropriate PSB-HOA test scores are required for the Clinical Laboratory Technology (CLT) program. For more information please refer to elgin.edu/clt (http://elgin.edu/clt/). In-District Tuition/Fees: $480 (effective 2020/21 academic year)

In-district tuition is subject to change based on Board approval (https://elgin.edu/pay-for-college/tuition-fees/).

Prerequisite: Acceptance into Clinical Laboratory Technology program or program director consent
Semester(s) Offered: Fall
CLT 101 Phlebotomy (3)  3.0
Students will learn basic techniques for blood specimen collection. Units on anatomy and physiology of the circulatory system, medical terminology, specimen processing, laboratory safety, infection control, quality control, and professional skills will also be covered. Students who wish to become certified as phlebotomy technicians must also complete 1.5 credits of CLT 120. (1.2) Proficiency Credit Available (2 EST) Pass/No Credit Not Available

SPECIAL NOTE: Explore the clinical laboratory technology program and come to an information session. For more details, go to elgin.edu/visitecc

A criminal background check, drug test, and appropriate PSB-HOA test scores are required for the Clinical Laboratory Technology (CLT) program. For more information please refer to elgin.edu/clt (http://elgin.edu/clt/).

In-District Tuition/Fees: $546 (effective 2020/21 academic year)
In-district tuition is subject to change based on Board approval (https://elgin.edu/pay-for-college/tuition-fees/)

Prerequisite: Score in the 12th percentile or better in each section of the PSB-HOA exam
Semester(s) Offered: Fall, Spring and Summer

CLT 105 Clinical Lab Assistant Skills I (2)  1.2
The Clinical Laboratory Assistant is an important member of the clinical laboratory team. CLAs are responsible for specimen collection and processing, reagent preparation, instrument maintenance, and performance of basic laboratory tests. Units on medical terminology, laboratory safety, infection control, use of diagnostic equipment, quality control, customer service skills, and laboratory information systems will be covered.
