COMMUNICATION DESIGN

ECC's Communication Design Department encompasses two dynamic visual disciplines: graphic design (incorporating web design) and videography. At ECC you'll experience hands-on learning in small classes from exceptional, industry-seasoned faculty in up-to-date facilities.

Exciting practical experiences are offered through the Spartan Design Club or through capstone projects designed to synthesize skills developed during the program. Professional portfolio presentations showcase student work to the community and prospective employers. If you are just beginning, then jump start your career and enhance your earnings potential by completing an Associate of Applied Science degree in either graphic design or videography.

If you need to augment an existing degree or work experience, or to master strategic design skills and gain a significant competitive edge in today's global marketplace, certificates are offered for the Adobe Creative Suite, internet design or videography. Students may even pursue an Associate in Arts degree that includes electives in communication design to transfer to a four-year college or university. Whatever your educational goals, ECC's communication design department offers you access to the unique professional resources necessary to achieve those goals.
