

TRANSFEROLOGY

Transferology is a nation-wide network designed to help students explore their college transfer options.

Simply enter or upload your courses to find equivalent courses at other schools. Matches are ranked by awarded credit, so you can eliminate the guesswork and maximize your transfer potential. Search for courses offered at ECC based on the required and prerequisite courses needed to complete your degree at the school you plan to transfer.

Students can create a free **Transferology** account to view how courses, exams, and/or military credit they have taken or plan to take transfer to another college or university for credit. See your academic advisor in the Student Success Center (B120) for assistance.
