

ASSOCIATE OF APPLIED SCIENCE DEGREES GENERAL EDUCATION REQUIREMENTS

Associate of Applied Science Degrees General Education Requirements

The college recommends that all students create an educational plan with an academic advisor in the Student Success Center prior to registering. Students with previous academic, career, and life experiences are encouraged to explore the proficiency credit options to substitute their acquired knowledge for prerequisite, course and/or degree requirements.

The college recommends using the Academic Planning, Registration, and My Progress tool I on accessECC to track your progress toward completion.

These degrees are not intended for transfer. For information about courses in the curricula that will transfer or about a transfer-oriented program, see an ECC academic advisor.

Curriculum Requirements

The student must satisfactorily complete all courses specified in the curriculum of their choice. For details, see all AAS degrees and course descriptions on the pages that follow in this catalog.
