

MEDICAL ASSISTING

A Medical Assisting Program prepares students to assume the role of a Medical Assistant in a variety of healthcare settings including outpatient or ambulatory care facilities, such as medical offices and clinics. Medical Assistants perform administrative and certain clinical duties under the direction of a physician. Administrative duties may include scheduling appointments, maintaining medical records, billing, and coding information for insurance purposes. Clinical duties may include taking and recording vital signs and medical histories, preparing patients for examination, drawing blood, and administering medications as directed by a physician.

The Medical Assisting Program at Elgin Community College strives to provide a well-rounded education for students looking to enter the healthcare field. This program will provide a personalized learning environment that will equip students to use critical thinking, professionalism and compassionate hands on care.

Entrance Requirements

- Reading: Grade of C or better in RDG 091 or LTC 099, or satisfaction of other placement criteria.
- Writing: Grade of C or better in ENG 098 or LTC 099 or satisfaction of other placement criteria.
- Math: Grade of C or better in MTH 095 or MTH099 or satisfaction of other placement criteria.

Program Requirements

Students must complete all required courses with grades of C or better to be eligible for graduation. Students must provide their own uniforms from the ECC bookstore, blood pressure cuff, stethoscope, and transportation to and from all clinical sites.

Policies and Procedures

Any student demonstrating a positive background check will be denied admission to any health professions program.

Prior to the first day of class, students must have the following documentation on file with the CastleBranch requirement tracking system: negative drug test results, negative background check, completed medical form, proof of immunizations/titer results including the covid19 vaccine, proof of health insurance coverage, and proof of American Heart Association Basic Life Support (BLS) for healthcare providers CPR certification.

Health professions students will be required to update their drug test, TB test/TB survey, and required vaccine information on an annual basis. Any student demonstrating a positive drug test will be dismissed from the Health Professions Division.

- Collect medical histories and be the liaison between the patient and medical provider using clear and effective communication skills

- Organize and assist in patient care throughout the ambulatory care setting
- Maintain administrative and clinical records using an electronic health record system
- Communicate and perform within medical law and ethics
- Demonstrate proper protective practices
