

MODERN LANGUAGES - BASIC SPANISH FOR MEDICAL PERSONNEL

The aim of this certificate is to provide health care workers with the necessary skills to communicate more effectively in Spanish with their patients. The curriculum includes two courses, Basic Spanish: Medical Personnel I and II. In these courses students learn the basic Spanish communication skills and grammar necessary to provide care and attention to Spanish-speaking patients in a variety of medical settings. In addition to workplace Spanish language, discussions cover cultural issues pertinent to the relationships between health care providers and Hispanic patients, parents or relatives, and community members.

Entrance Requirements

None

Program Requirements

None

- Speak, read, listen, and comprehend the Spanish language in basic/conversational written and verbal forms, with emphasis on medical terminology and healthcare interactions.
- Demonstrate appropriate usage of grammar patterns and pronunciation habits.
- Communicate in spoken and written Spanish to patients and members of the healthcare team in medical environments.
- Discuss topics of contemporary Hispanic life and culture as related to medical and healthcare situations such as women and children's health, diet, disease, and interactions with the American healthcare system.
